Look to Your Refrigerator!

Here's a Risk You Should Not Run.

Is there moisture on the food-chamber linings of your refrigerator? Are the fruit and the milk bottles always wet when you take them out? Did you ever wipe off this moisture with a towel and note the smudge? As the ice melts, its impurities are condensed, with the moisture, upon the food—on the butter, vegetables, meat, in the milk and cream, the same as upon the bottles and fruit and the walls of the food chamber.

Think of your family eating this smudge, in their food, for twelve months in the year! Think of meat, butter, fruit, puddings, soggy with impure moisture!

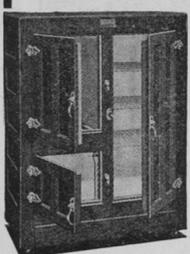

This cannot possibly happen if you own a

Bohn "Sanitor" Refrigerator

Its very construction will show you at a glance why it keeps food, walls, lining dry, clean, and sweet.

Its heat resisting ability is remarkable, its construction thoroughly substantial in every way. It is built to last a lifetime. The lining is genuine Porcelain fused into steel at intense heat; very different from the baked enamel paint, sometimes called "porcelain enamel."

Bohn "Sanitor" Refrigerators are made in our own factories. We also make the famous Bohn Siphon Refrigerators, and in the "Sanitor" maintain the same standard of materials and construction. In fact, we will guarantee them to be more efficient than any other make, except the Bohn Siphon.

Special Price \$31.50

The model illustrated, No. 13, is 26 x 20 x 49 inches, and has an ice capacity of 125 pounds. Priced regularly at \$40.00, it is temporarily reduced, during this limited midsummer sale, to \$31.50. During this period the many other styles and sizes are correspondingly reduced. Write for illustrated catalog. Remember, we are the manufacturers, not agents or middlemen. Select now, before these special low prices are withdrawn. On a small deposit we will hold your refrigerator for full delivery. If you cannot call, write for our illustrated catalog.
