The Nestlé Permanent Hair Wave

Before Waving

Nestlé Waved

is on the head (human hair grows about one-half inch per month).

During the twelve years of our existence in London as Permanent Hair-Wavers over 40,000 heads of hair have been waved by our trained experts, and this treatment is well known to be a HAIR TREATMENT if done by experts who can differentiate between the hundreds of hair-textures.

Mr. Nestlé, original inventor of permanent waving and acknowledged authority on matters relating to hair, is in personal attendance at the Nestlé establishment in New York, and can be consulted between 10:00 A. M. and 6:00 P. M. on the following subjects:

Permanent Waving, Nestol Scalp Treatment for Children and Premature Baldness.
