What Causes Hangnails?

You Need Never Again Have Them

The famous specialist, Dr. Edmund Saalfeld says that hangnails have two causes. If the cuticle is allowed to grow up onto the surface of the nail, the skin will tear, become detached and form hangnails.

Hangnails also come from improper or too vigorous treatment of the cuticle.

Knowing how important it is to keep the cuticle unbroken, the formula for Cutex, the perfect Cuticle Remover, was prepared. Cutex is harmless. The moment you use it, you realize that you have found the one successful way to take care of your cuticle.

How to Have the Quickest Manicure, the Loveliest Nails

First file with steel file until your nails are the proper length. You will find an orange stick and absorbent cotton in the Cutex package. Wrap a little cotton around the stick and dip it into the Cutex bottle. Then work the stick around the base of the nail gently pushing back the cuticle. Wipe off the dead surplus skin. Rinse the hands in clear water. A touch of Cutex Nail White underneath the nails, makes them immaculate. Finish with Cutex Nail Polish.

A few Cutex manicures will make you proud of your hands. Instead of rough edges and hangnails, your nails will have such a graceful shapeliness that nothing would induce you to go back to cuticle cutting. Then their transparency, their soft sheen will delight you.

Start to Have Lovely Nails Today!

Ask for Cutex, the new Cuticle Remover wherever toilet preparations are sold. Cutex comes in 50c and \$1.00 bottles; introductory size, 25c; Cutex Nail White is only 25c; Cutex Nail Polish in cake, paste or powder form, 25c. If your favorite shop has not yet secured a stock, write direct.

Send 14c for This Complete Manicure Set

Send 14c for complete Cutex manicure outfit—enough for at least six applications—Cutex, the Cuticle Remover, Cutex Nail White, Cutex Nail Polish, and Cutex Cuticle Comfort, even including cotton, orange stick and emery board. Write Northam Warren, Dept. 701, 9 West Broadway, New York.

If you live in Canada, write MacLean, Benn & Nelson, Ltd., Dept. 701, 489 St. Paul Street, West Montreal, Canada, for Canadian prices.

The Nestlé Permanent Hair Wave

With this issue we begin an interesting object lesson.

Both of these heads were permanently waved and photographed at our establishment on Dec. 30th, 1916.

Before Waving *Before Waving*

Next week we will show them with the hair fashionably dressed.

And from week to week we will print new pictures for the purpose of showing the growth and the action of the hair.

Although these heads represent the scanty and the full, strong type of hair, it will be found that in future the hair of both will grow about one-half inch a month. Were it not for this neither of them would ever require another wave.

The Nestlé treatment is thoroughly scientific. If you come to our establishment with the straightest, stringiest, oiliest hair we will make it naturally wavy. The process requires about two hours.

Over fifty thousand heads of hair have been treated by us since 1905 at our London office.

At our New York headquarters we treated four thousand during 1916.

Illustrated and descriptive booklet sent upon application free of charge.
