La-May Face Powder Is Pure!
—No White Lead—No Rice Powder—
It Really Stays On Better Than Any Other.

Up to the present time it has been almost impossible to get a face powder to stay on longer than it takes to put it on. You powder your nose nicely and the first gust of wind or the first puff of your handkerchief and away goes the powder, leaving your nose red, shiny and conspicuous, probably just at the very moment when you would give anything to appear at your best. A specialist has at last perfected a pure powder that really stays on; that stays on until you wash it off. It does not contain white lead or starchy rice powder to make it stick. This improved formula contains a medicinal powder doctors use to heal the skin. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores, blackheads and rice powder pimples. In fact, this new powder helps to prevent and reduce enlarged pores and irritations. It is also astringent, discouraging flabbiness, crow's feet and wrinkles. To get this unusual powder learn to pronounce the name correctly. It is called La-may (French, Poudre L'Ame). Because it is pure and because it stays on better than any other, it is already sold by thousands of dealers everywhere. There are two sizes. The large size is only fifty cents and the half size is twenty-five cents. When you use this delightful La-may and you see how wonderfully it beautifies your complexion, you will understand why it so quickly became one of the most popular complexion powders sold in New York.
