### Hear Them Side by Side And Know Which Suits You Best

Buyers of Talking Machines should be firmly convinced that they have chosen the make that seems best suited to their particular ideas of tone, etc.

There are several makes that are all that a talking machine should be, but each has certain characteristics that appeal to different people. Opinions differ as to what one is the best. There is no reason why you should not buy the one that seems best to you as your opinion is just as safe and sound as that of your friends.

There is only one way of knowing which make of talking machine measures up with your ideas of talking machine quality—come to Wissner's where you can hear the world's best side by side.

Comfortably seated in one of our large, airy sound-proof rooms and a courteous attendant to serve you promptly, you may listen to the same record on each machine. The acoustics and surroundings will be the same for each and you can make a fair, unbiased decision.

Many people have chosen hastily and unwisely in the past through being influenced by favorable surroundings, good acoustics and convincing salesmen. Our salesmen do not recommend that you buy any certain make. You are left to make a decision based on the merits of the machine that impresses you the most favorably.

That is the Wissner way of selling talking machines—it should be your way to buy one.
