Eight piece Ayer bedroom set, in antique Venetian green and gold, now on display. Done in your own color scheme, \$709

DANERSK DECORATIVE FURNITURE

In the days when the beautiful pieces of the past were made, there were no "stock sets," no great factories, but each piece was made for the family that ordered it. The DANERSK method is identical with that of the past. We fashion our furniture from rare woods in our dry sheds and finish all pieces in the manner prescribed by the purchaser for each room. Because we have so organized we can give quick deliveries. Beautiful schemes have been worked out by us for almost all the imported fabrics available to-day. Make your selection and we will finish it as a unified set.

We hold all pieces ready for immediate finishing in the decorative scheme of your own choosing.

BOHN SYPHON REFRIGERATOR

- 1 The Bohn Syphon System keeps the cold, dry, pure air circulating rapidly, preventing mingling of odors and the settling of impurities upon the food. The drain is in front, instantly removable without disturbing the food, so it can be cleaned thoroughly every day. This means **HEALTH**.
- 2 Lowest temperature of any refrigerator ever built, due to the Syphon System of rapid air circulation and to the scientific construction, with "Flaxinum" insulation in walls and doors. All dining cars (a severe test) use Bohn Syphons. This means **EFFICIENCY**.
- 3 Lining of genuine porcelain fused into steel (a single piece in all but the very largest models). Look out for painted tin, called "porcelain-enamel," etc. The corners of the Bohn lining are rounded—no place for food particles to lodge. This means **CLEANLINESS**.
- 4 The scientific construction of the Bohn Syphon, famous throughout the world, makes it a great ice saver. Think what this will mean this summer, with price of ice probably the highest ever known: then multiply your saving by the years you will use your Bohn Refrigerator. This means **ECONOMY**.

Call if you can—if not, write or phone for catalogue.
