

**Now You Can See It!**  
 "RUN to that little glow dear, and press the button on the switch. Isn't it easy to locate things in the dark with an **Ingersollite Locator**?"

Real radium in the substance on the little discs and in the glass pendant makes them glow for years.  
 Because Locaters are made in three styles—Pendant, Tack and Adhesive—you can put them anywhere. Doorbells, furniture obstructions, poison bottles—anything that safety or convenience demand that you should locate in the dark—are marked clearly and distinctly by these little luminous beacons.  
 Three styles—Pendant, Tack, Adhesive—25c each—at all progressive dealers.

**KRYSTALAK**  
 Krystalak is pure, clean, nourishing, skimmed milk with all the water taken out. These dry, flaky milk crystals are packed in blue striped one pound packages only; they are sealed in these waxed airtight packages at the source of supply and are positively moisture proof.  
 Krystalak solves your summer milk problems, for it needs no refrigeration, and it does not become rancid. You do not need to worry about sour milk this summer. Just keep a package of Krystalak on your shelf for all cooking purposes—and you'll enjoy its convenience.  
**HOW TO USE KRYSTALAK**  
 Dissolve 4 level tablespoonfuls of these dry, flaky milk crystals in one cup of water. One cup of Krystalak makes one quart—add the Krystalak to the water and it dissolves immediately.  
 Get a copy of our booklet on milk cooking. It is free either from your grocer or direct from us. If your grocer hasn't Krystalak, he will gladly get it for you. Do not accept Krystalak substitutes in paper bags, for the milk will become rancid and lumpy. Krystalak is sold only in blue striped sealed packages.
