

Blue Bird

ELECTRIC CLOTHES WASHER

PICTURE having plenty of clean clothes all the time—*truly clean*—with no worry about frequent washings—In these days of high prices, having your clothes and linen last from five to ten times as long—Hours and hours saved from exhausting labor—which can be devoted to health, study, recreation and other things really worth while. This gives you some idea of the happiness the Blue Bird Electric Washer will bring into your home.

No more red, parboiled hands from cruel, hot water—
No more days spent at the labor of washing, a task most disgusting to the finer sensibilities of woman.

No more evenings of utter fatigue, of pains and aches, of despondent helplessness in the face of a never finished work.

Instead—your entire washing accomplished by a simple, handy household appliance, with electricity doing the work at a cost, at most, of a few cents weekly.

And when the clothes are clean, spotlessly clean, there is a wringer—turned by electricity—to wring out the surplus water that they may dry quickly.

In principle of operation, the Blue Bird Electric Washer is immensely superior. The rocking cradle which holds the clothes has a to-and-fro motion of over three feet, giving greater circulation to the cleansing soap and water, and it is so arranged that the water passes around, over, under and through the clothes—with an ingenious double action so that clothes are washed *clean*.

In ten minutes, or perhaps fifteen minutes in exceptional cases of very soiled clothes, the Blue Bird has flushed away *all* the dirt and has left the clothes spotlessly clean. By no other method can such thorough washing be done so quickly—and without the slightest injury to the most delicate fabrics.

Heavy pieces, such as comforts, blankets, rugs, are as completely cleaned by Blue Bird.

Indeed, Blue Bird accommodates the entire household washing.

The Blue Bird Electric Clothes Washer is beautiful to look upon. Slightly less than waist-high, it is a striking appearing cabinet and so delightfully clean and sanitary. The cabinet is all metal—rust proof—enameled in a lasting white, which can be washed and wiped and will not streak.

No working parts are exposed—it is perfectly safe for the children to be around while the Blue Bird is working.

The simple, strong, dependable mechanism is made just like an automobile, the same high-grade materials, the same skilled workmanship.

Why put up with the old washing method longer? The quick, efficient, charming Blue Bird Washer awaits you at a nearby dealer and for a small first payment it can begin immediately to bring happiness into your home on washday.

Don't fail to see and thoroughly examine the Blue Bird at the Electrical Show.
