Miss Margaret Dinneen was born in Madison, but having Ireland strongly at heart, has made two very interesting trips to that country. The first was made in 1898, when Ireland stage a great celebration in honor of "Wolf Tone" one of her greatest workers and admirers. Miss Dinneen so enjoyed the first trip that she paid this island another visit in [1907?], when they had the "Dublin International Exhibition." She made the return trip home on the "Lusitania," on her maiden voyage.
