About Stamp Collecting

THOSE persons who cultivate some instructive amusement like painting, drawing, music, growing of plants, and dozens of other things which may be classed under the head of personal recreation, have always something within their reach that makes them independent of the outside world and oblivious to lonesomeness and low spirits.

Such is the Amusement of Stamp Collecting

It is growing more popular and entertaining than any other amusement of this nature. Once begun the entire family becomes interested, and it proves equally as instructive as it is attractive and enticing. From the standpoint of an investment there is nothing better. Old stamps are constantly increasing in value. Many stamps that cost but cents are now worth dollars. For the small outlay of \$1.00 we can supply you with a Beginner's Album, a packet containing a selection of two hundred stamps, all different, and a package of stamp stickers, commonly called "hinges." We can also supply a collection of *one thousand* different stamps, a complete large sized album, fully illustrated, and a complete catalogue also illustrated for only \$12.00. About stamps, buy or sell, write
