PETERS' NEW COPY BOOK

For Class or Private Tuition.

Peters' New Copy Book can be used in connection with any method or system of instruction. It can be used with or without an instructor and will be found a useful assistant to both teacher and pupil. Peters' New Copy Book is intended to impress upon the mind of the student a thorough and lasting knowledge of the rudiments, or the A B C of music; without which knowledge the study of music becomes tedious, mechanical, and consequently unintelligible.

The elements of music are usually taught during lesson hours, and the pupil pushed forward under the impression that rapid progress is being made, and months afterwards, to the mortification of teacher and pupil, it is found that the pupil has forgotten all the first lessons which the teacher had taken so much pains to impress upon his mind. This is the trouble with the oral method of instruction; it does not impress facts on the mind like the copying system.

Peters' New Copy Book is intended to remedy this lack of attention and thought on the part of the pupil, it being impossible for any ordinary pupil to forget past lessons under the copying system presented in our New Primer. It requires thought and hard work to write the examples; the pupil must know what he is about to complete his task.

Valuable time is wasted under the oral system in imparting knowledge. Under the copying system the teacher can explain the lesson in a few seconds, leaving the student to study and write out the example in time for the next lesson, thus giving the teacher more time to devote to touch, technics and other important instruction.
