September 3, 1945.

Dear Ed:

Thank you so much for getting the Chavez music to me. I should have thanked you sooner and I am sorry because I know that you must have had some headaches over it as you pieced the music together.

I think it may be very beautiful, especially in parts, the winds particularly. I hope to do it in New York either late in November or early December. I started to get started on it at Bennington where I was two months. It was especially lovely there and when the pupils had left and the campus was deserted it was divine. That was for a month there.

I would like very much to have you do the lights again as you suggested. I keep thinking of this time last year when we were all in such an excitement and turmoil. Or rather I should say that I was in a turmoil and you were all so wonderful and patient. I think it was one of the greatest times in my life and I have never felt so high and so low, too. But at all times I did feel sustained and helped by the people there and that was wonderful because there were times when I was a trial and a nuisance I know.

I hope you had a good summer with some vacation and that the heat was not too special as Washington heat can be. And I hope the coming season will be exciting and rewarding in every way.

With best wishes always,

Martha
