The most startling piano news of the century!

A new piano . . . an old ideal! Steinway tone . . . Steinway action . . . Steinway appearance. Flawlessly, faultlessly . . . completely Steinway.

Only in size does it differ from the other Steinways on our floors. It is as perfectly constructed . . . of as fine materials . . . as the Steinway Concert Grands used in recital by Hofmann, Paderewski and Rachmaninoff. Craftsmen, many of whom have been with Steinway & Sons for thirty years, apply their rich experience to its building. From steel strings to luxurious cabinets, this new Steinway carries on without compromise the Steinway tradition of perfect craftsmanship.

We invite you to view the new Steinway — exclusive with us — at your earliest convenience . . . and to find out how easily the world's most perfect piano may become yours.
