Children develop a deeper appreciation of music

WITH A HAMMOND ORGAN IN THE HOME

Children find endless delight in the Hammond organ's variety of tonal colors. It's fun to hear their favorite melodies rendered first by one instrumental voice and then another. And all the time their interest is leading them—*educating* them—into real appreciation and understanding.

A small down payment delivers the Hammond and its small size makes it thoroughly practical, even for apartment living rooms. Drop in soon and let us demonstrate this fascinating instrument.

The Hammond Studios, 50 W. 57th Street.

\$1275 and up, f. o. b. New York—slightly higher for large installations.
