

I KEEP REMEMBERING

The way you looked at me the first time we met

I close my eyes and feel the thrill of it yet

I keep remembering (CHORUS: I keep remembering)

I keep remembering (CHORUS: I keep remembering)

The things I should forget

The spell of twilight when we walked on the sand

The way we danced all night, the touch of your hand

I keep remembering (CHORUS: I keep remembering)

I keep remembering (CHORUS: I keep remembering)

The things I should forget

I thought I knew just where I was - Paradise plus

One foolish fight and there I was - Too proud to fuss

What happened to us

I'll never know what ended it - what did I do

Perhaps we could have mended it - but ~~now~~ you

Have somebody new

Why can't I write it off as one of those things

Why do I jump each time the telephone rings

And keep remembering

I keep remembering (CHORUS: I Keep remembering)

I keep remembering (CHORUS: I keep remembering)
