MARGOT FONTEYN

May 14R

Dearest Sylvia,

I loved your letter. Tito has sent me various bulletins concerning your projected visit to London. The latest one I regretted very much. It would be marvellous to have you here. Tito had decided that he could not possibly get over this

week-end as he has far too much work stacked up in Panama. However he is now on his way and should arrive tomorrow morning. I was very happy that you took such good care of him in L.A.

I saw Dany one evening only at Vivien's party & at the day before. He didn't seem to be enjoying London very much. Said that it was all too hectic. I had to go over to Paris the day of "Knock on Wood". Long to see it/but

MARGOT FONTEYN

have been too tired to go out at all lately. Also love can't get in. The enclosed description of Dame I found in the Financial Times!

Re June I shall be in London 8th to 17th then in Holland with the ballet till 25th and leave again for Granada on 27th. We are landing there for 2 days only – and then I will go on holiday somewhere with Ti-To, for the first two or three weeks of July.

I don't think we will stay in Spain. We might go to Africa or south of France but have not yet settled. I feel as he has been working so terribly hard that we should just go to some very small place and be absolutely quiet. He has set himself much too much to do this year and those weeks will be his only chance to get a real rest. I will be back in London definitely from July 24th to end of September except for August 22nd to 28th in Edinburgh at the Festival. When I think of it that is about the

only time I am in London except for the few days before Holland.

MARGOT FONTEYN

Freddie is in great form and we all think it would be an excellent idea for you to come to London while we are here. Do please think about it – all you need is a raincoat – but not 'Foolish come London' because we all long to see you and the boat trip was far too short.

Can't stand the sight of my unformed handwriting any

longer!

All love

Thick!
