Dearest Sylvo,

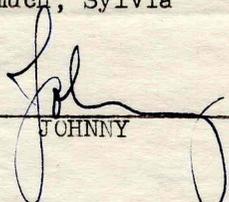

Nobody understands so well as you and Bonno what a real hassle the 1947-48 holiday season has been for me. Therefore, I am sure that you will understand and forgive the seemingly unforgivable delay in this acknowledgment.

I think you saw, on Christmas Eve, what your gift meant to me. I have received few things in my life that have warmed my whole being as did the frame with its inscription. I shall treasure it always as a symbol of one of the few real treasures of my life, which is our friendship.

Bonnie's and my love for you grows daily, - if that is possible, - and your well-being and happiness are as dear to us as our own.

Thanks again, so very very much, Sylvia
darling.

JOHNNY
