Dear Danny

At long last we have a pretty complete set of photos in an album in memory of your visit to the patients at the Casualty Staging Flight unit, Tachikawa Air Base, Japan. All of us connected with your visit remain extremely grateful for the kindness and compassion you demonstrated while spending your time with the patients. The patients and the hospital staff both received a tremendous lift from your visit.

I hope that you have some spare time and will be able to autograph the photos in the enclosed envelope. I will see that they are sent on to the individuals concerned. Unfortunately, some of the patients left that evening and the hospital was unable to identify all of them. The enclosed album is for your use. If you are back this way again, I am sure that General Ault will be extremely pleased to have an opportunity to get together with you.

Sincerely yours
