Dear Danny:

The closing night of the Variety Clubs International convention was made more memorable by you being the recipient of the Humanitarian Award, and this is by way of acknowledging your effective and meaningful contribution. The chemistry was perfect and the intermixture of Kaye and Kennedy helped to make it a superb evening.

You keep doing the things you're doing and we'll try to hold up our end with sick and handicapped children--- and between us, perhaps we can bring a little happiness to this troubled world.

My best, as always.

Sincerely,

Sherrill C. Corwin
