Dear Mr. Kaye:

We in AVC wish to congratulate you for your courageous stand on the present un-American Congressional investigation of Hollywood. Your participation in the flight of twenty-seven film notables to Washington to protest this infraction of civil liberties indicated that you were well aware of the importance of this matter. As a member of the Committee for the First Amendment you should be interested in spotlighting this national disgrace not only in Washington but elsewhere in the nation as well.

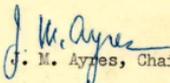

You are scheduled to make an appearance at Purdue University on November 21. I am sure that our chapter of AVC, which is composed almost entirely of Purdue students, and several other student groups would greatly appreciate the opportunity to jointly sponsor a reception for you immediately following your show. At that time you could give us a first hand report on the Congressional investigation and as students of Purdue we could join you in a series of protests to Washington.

A prompt reply to this request would be appreciated. Please address your correspondence to:

Thank you very much.

Yours truly,
