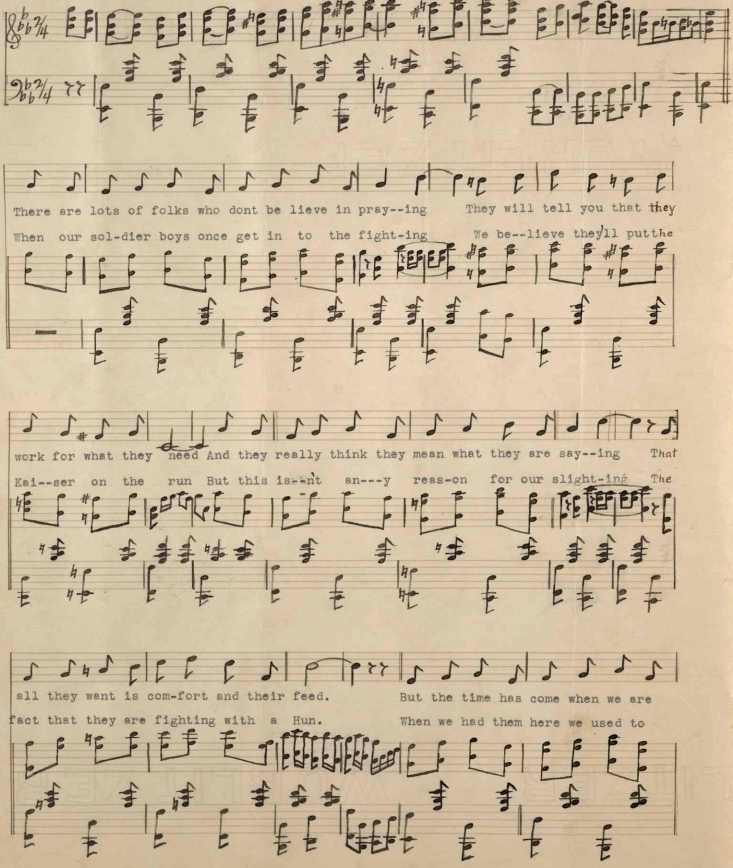
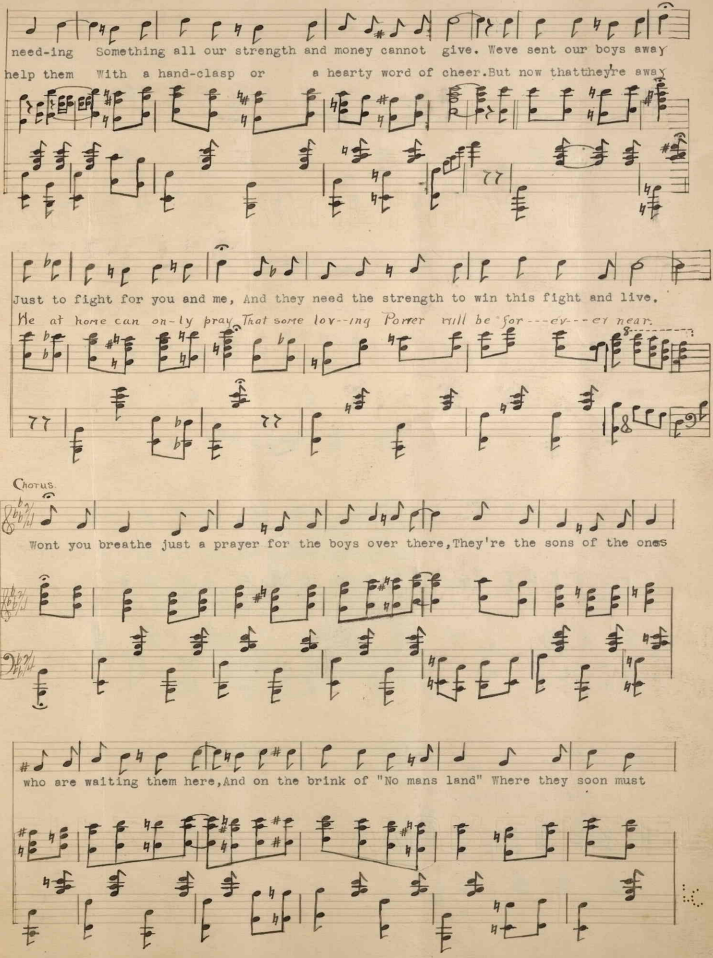
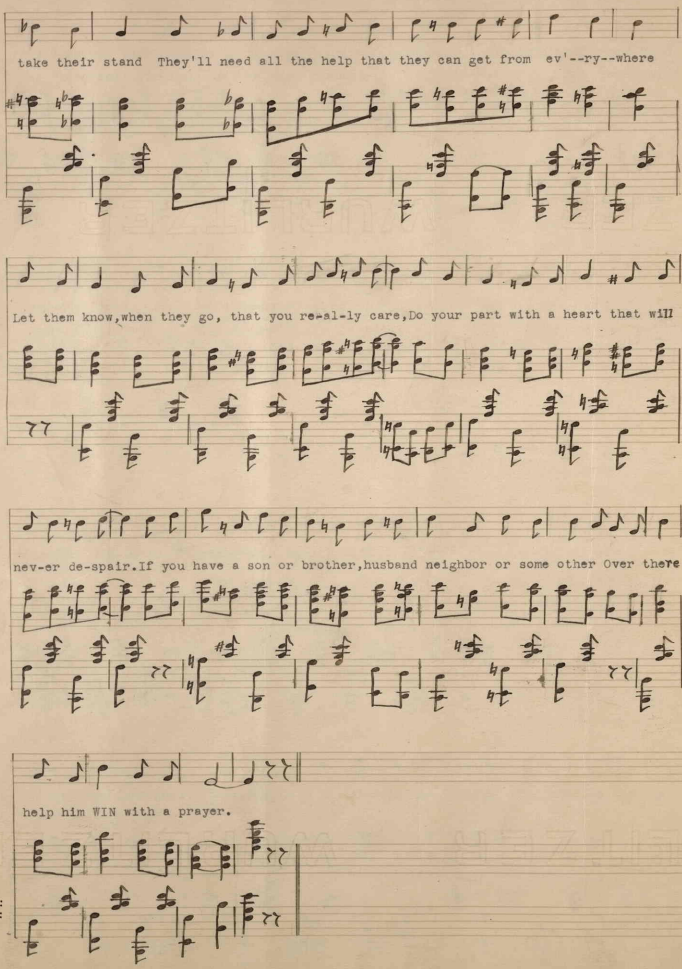
Won't You Breathe Just a Prayer
For the Boys Over There?

Words and Music by Ben. J. Bradley.





need-ing Something all our strength and money cannot give. Weve sent our boys away
help them With a hand-clasp or a hearty word of cheer.But now thattheyre away
Just to fight for you and me, And they need the strength to win this fight and live.
We at home can on-ly pray That some lov--ing Power will be for---ev---er near.
Chorus.
Wont you breathe just a prayer for the boys over there,They're the sons of the ones
who are waiting them here,And on the brink of "No mans land" Where they soon must



take their stand They'll need all the help that they can get from ev'--ry--where
Let them know,when they go, that you re-al-ly care,Do your part with a heart that will
nev-er de-spair.If you have a son or brother,husband neighbor or some other Over there
help him WIN with a prayer.
