## What Meaning Have Green Fields for You?

---

To one person Green Fields may mean pure Beauty; golden high-lights and purple shadows—soft greens and dots of red.

To another they are the product of his brain and hand; long rows that mark the seed he dropped—the plants he set. Fruiting fields that lacking his best efforts would have been bare ground.

To another man they mean Toil—grim and unrelieved.

One man may see in green fields, Wealth. To another they mean food for starving children and salvation for a country wrecked by War.

*A tiny brown seed—the rich soil that lies beneath our feet—a burlap bag of Fertilizer. These seem the most common-places of all the things around us. Yet, their union brings forth roses and orange blossoms—broad meadows and laden orchards.*

It is with these better visions of barren ground made fruitful—of bigger crops and better, that we have striven for more than Sixty Years to make our brands The Standard Of Their Kind.
