1.

Everybody's cheerful far across the foam  
Everybody's feeling gay,  
All the boys are happy 'cause they're coming home  
They are sailing back to-day.  
They're at the same old pier where once they said "Hello"  
Twas just a year ago.  
But now they're homeward bound-just hear the joyful sound  
They're bidding France Good Bye as whistles blow.

## CHORUS:

Goodbye France we're going to leave you now.  
We've paid our debt to you.  
We're always ready to stick to our vows  
Backed by the Red White and Blue.  
Though we part we'll always be friends  
It's over and we're going away.  
So goodbye France we're going to leave you now  
We're going back to the U.S.A.

2.

Mothers you've been praying for your boys return  
And your prayers are answered now.  
Sisters wives and sweethearts though your hearts have yearned  
You stuck to every vow.  
You've made the sacrifice so that all the boys might go.  
You've paid the price we know.  
You've helped to bring them home from far across the foam  
So help them say "Good-bye" they've said "Hello".
