VICTORIOUS U. S. A.

1.

Under the cannons roaring
Neath the skies of No Man's Land
Ican see our boys they're roaming
To [redacted] battle fighting hand in hand
Each one has his share of work to do
Dying for Liberty, and fighting for you.

CHORUS.

America's people are in back of you
Mingling their tears with their joys
Each one is showing that he is true blue
Reaching across with good cheers for our boys
In the trenches, and the homes, hearts are sad and gay
Crying, and praying for the only day,
America, we love you, Victorious U. S. A.

2.

Shouting their cries of freedom,
Tis our day of Victory
Another's prayer has been answered
That [redacted] loved ones again she will see,
Evening shadows fall, their hearts are gay,
Sons are now listening, as these words we now say.
