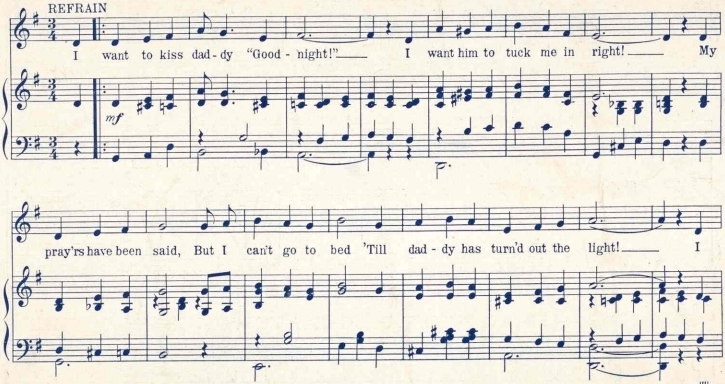
A SONG THAT GRIPS THE HEART

A little child whose daddy is at the front fighting his country's battles, has a dream. The little one imagines daddy is being hurt by some "naughty men"—the enemy. However, on awakening, the father's last letter is remembered, where he said he was coming home soon, and the little dreamer runs down stairs to mother, saying:

"I WANT TO KISS DADDY GOOD NIGHT"



The melody of this song sings itself. Once you hear it, the song rings in your ears over and over again. The accompaniment while simplicity itself, is full of beautiful chords and harmonies. You'll enjoy playing or singing this song immensely.

"I want to Kiss Daddy Good Night" is by **Gordon V. Thompson** whose songs have proved an international success. His picture—our trade mark—on a song brands it as one of quality. Some of his other successes are :
