# UNITED STATES OF AMERICA

Union forged from crude genius and heroic valor,  
'Neath the blazing light shafts of the noon-day sun;  
Indian moonbeams tempering the weld with softest vapor  
Throughout the period of the night-time's ever tranquil run.  
Enscrolled upon the sacred records of swift fleeting time  
Deeds inspired by grace and mercy of the Head Divine.

Stars of hope that light the heavenly sphere;  
Token of love's fidelity,  
Adorning the flag that shields everywhere  
Throughout the land of liberty.  
Eagle great, o'er which the angels care,  
Standard borne for security.  
Onward and upward may it fly  
Forever against the azure sky.

Abode of freedom from accursed tyranny's oppression,  
Moulder of Democracy's great fount of hope.  
Emblem pure of righteousness and onward in progression,  
Repelling with a gentle sternness e'en the demon's cope.  
Instilling within the soul, love, security and peace.  
Counsellor and benefactor of this whole world wide,  
Anchor weigh'd in blood for freedom our sacred guide.
