"United States--United Hearts" By Mrs. S. B Williams.

We come from every clime and state; with this dear Flag to cast our fate;
We come with hearts as true as steel; with heart and hand our lives to yield.

When love flows out thro ev'ry vein; and binds the world without a chain;
Then brotherhood of heart and brain; then freedom follows in his train;

The Eagle is our Emblem grand; of freedom in our mighty land;
He spreads his pinions [redacted]; and screams: "No autocrats rule me"
over the land

The Eagle stays within his lair; but you assail him, if you dare;
He'll fight you then til you are done; and leave your bones dry in the sun;

He spreads his pinions wide and strong; and o'er the clouds he floats along;
He screams s until the welkin rings, and ev'ry heart with freedom sings.

CHORUS.

United States..United Hearts; form one united land;
We welcome all of foreign birth, who with us always stand.
