3. Come those that stay at home and do the work
Let every moment count no labor shirk
But plant the field and garden right away
And help your country win the fray
And those that in the factory toil and spin
Make every moment count that we may win
Then freedom on the land and sea
Shall come to us with victory.

4. O God protect our boys on land and sea
And help them to help others to be free
That this old world of ours might happy be
And worship Thee and only Thee
And may this cruel warfare soon be done
And every nation honor thy dear son
And in all hearts thy will be done
Beneath the banner of the Cross.
