3. The Kaiser has gone astray

He is out to make a stake

The whole round world he vows that he will take

But this must never transpire.

4. Such times are most stirring times

When our liberty's at stake

But all our combined efforts will prevail

We have ne'er been known to fail.

5

We'll burst the Kaiser's power

And there's Europe to restore

We are all with our President Wilson

When Uncle Sam is calling
