Most ev-ry thing that is done these days is up to date so it seems, No one ev-er thinks a -
Man - y years back that's when life was slow folks tho't walk - ing was so great, When a - round rolls an - oth -

but the cost tho' it's far be - yond their means; Some folks spend a nice lit - tle for - tune for just a
er few years with a hun - dred per hour rate; It's got to be that noth - ing seems new it keeps a

sim - ple wed - ding dress, While I got wif - ie one just as good but I paid a whole lot
fel - low on the gp, Why I al ways tho't my life was fast but I've found out it was

less. It did - n't cost me much to get mar - ried, so I'll spend it on our wed - ding trip,
slow. Just now each hour seems long - er than be - fore, while we're wait - ing for the Kai - sers doom.

CHORUS

Well go a whirl-in' to Ber- lin in an air - ship built for two, When the Yan-kee boys land in that

town, 'neath the old Red, White and Blue. We'll spend our lit - tle hon - ey - moon down

where the Kai - ser loved to roam, I'll see that you're the on - ly queen that sits up - on his throne.

We'll have our lit - tle joy rides for we'll fly right o'er the Rhine, You can have a hun - dred

hon - or maids, you can have Bill serve the wine, And in the bright moon - light, a - way up high in the

sky we can woo, When we'll go a whirl-in' to Ber- lin, in an air - ship built for two.
