2. Thou Lodr hast taught us in Thy Word
For right and truth to draw the sword
That better far than peace with sin
Is battle joined that right may win.
Obedient- God- we gave our men-
O, bring them home to us again!

3. Above the far flung battle line
Let light O God and glory shine
Into their hearts and make them brave
Thou only God art strong to save-
"Look down upon our splendid men-
And bring them home to us again".

4. The proud have risen in thier might
And challenged truth and mocked at right
And made Thine earth to reek with blood
And set at naught man's brotherhood
Against them God- now hurl our men
And break them into dust again.

5. In this their day of greatest need
Send God their Captain- Christ to lead-
Them on to victory oe'r the foe
And walk with them where'er they go-
Till truth and peace and justice reign
Then give them back to us again!
