Price 20 cents.

THE KAISER'S GOOD-BYE.

By EMILE HOYAUX, SR. Belgian-American.

Introduction.

1. In the year nine-teen - fif - teen, The Lu - si - tan - ia was sunk,
 2. Un - cle Sam and his neph - ews, When It comes to what is right,
 3. Un - cle Sam will stand no more of hos - tile Ger - man's ac - tion,

By a sub-marine un - seen, They, the Huns, have shown their spunk! Drowning mothers and children,
 Slackers will be ve - ry few. For their country who won't fight, William's wore out our patience,
 Who dare come within our shores, With purpose of de - struc - tion, Blowing up our fac - to - ries,

And de-fenseless men a-like, My brave fel-low cit-i-zens, Let us go for-ward and strike.
 With his spies and with his lies, Let us boys all go to France, Fight to vic-to-ry or die.
 Our railroads and our structures, And crippling our In-dustries, That is too much to en-dure.

CHORUS.

Let us go to Ger-man-y, To sat-isfy their needs, With Uncle Sam's energy, We'll fight them till they're beat.
 Let us go to Ger-man-y, Ei-ther by day or night, To fight the Prussian army, With A-mer-i-can might.
 We must go to Ger-man-y, There we will strike for sure, To crush their autocracy, And their Prussian culture.

4. America, sweet mother of adoption, I am here.
 Ready to cross the water, To go fight for you, my dear,
 When I came within your shore, You didn't even know my name,
 Yet, you said "For evermore". You're welcome with Uncle Sam,
 I will go to Germany, As Uncle Sam's nephew,
 To use all my energy, For the Red, White and Blue.
5. If the Kaiser wishes peace, The first thing he'll have to do,
 To come down upon his knees, Before the Red, White and Blue,
 With good-bye Autocracy, I am beat forevermore,
 I've bled to death, Germany. And other countries by scores,
 I must now pay for my sins, Through God his discipline,
 So good-bye my submarines and all my Zeppelins.
