FAIR PLAY

If there is one thing that is ingrained in the American people and in which they take pride, it is **FAIR PLAY**. By "American people" is meant not only those of us who were born here, but all those who have adopted this country as their home, who have received all the benefits which are extended here to all alike, who have been recognized as free and equal by this Government, and who have enjoyed the protection of the American flag. This includes you, unless you are an alien enemy or a sympathizer of the bloody Kaiser.

What are you willing to do to "Knock the Is-er out of Kaiser?" That may be slang, but it is based on good, sound English, for the Kaiser **IS** orthographically and in fact, and because he and all his minions have planned with the cunning of devils incarnate for the subjugation of the civilized world, he will continue **TO BE** unless you help with all the power and resources that you possess to make him a thing that **WAS** but is no more,—in other words, make him a "Was-er" and bury him and his deep in the dead past.

The boys who are singing this song are giving all that they possess, including their lives, to make this song come true. That is easily said, but have you ever stopped to think what a big and wonderful thing it really is? Now, we'll leave it to you, doesn't **FAIR PLAY** demand that you do as much? Well, it so happens that you, with all your resources, can not do **AS MUCH**, but you can at least do as much as you can.

MAKE GOOD NOW, so that when the great victory has been won and those of the boys who return come marching home, some of them maimed and broken, you will not have to hang your head in shame and say, "Boys, you won my fight for me, but I didn't **PLAY FAIR.**"
