ORIGINAL GUTTA PERCHA ROOFING PAINT!

A Perfect Protection from the Elements.

Worthy the Attention of Architects, Builders, Railroad Companies, and all Owners of Property.

DURABLE, BEAUTIFUL, ELASTIC, AND CHEAP.

This Paint has been most thoroughly tested in this city for the past eight years, upon Old and New Metallic Roofs, and is now offered with perfect confidence to the public as the most valuable and durable roofing paint in use.

The special qualities for which I claim great superiority over all others, are the following :

1. Its Perfect Elasticity.
2. Its Imperviousness to Dampness.
3. Its Unequalled Durability.
4. Its Fire-proof Properties.
5. Its Beauty and Hardness.
6. Its Adaptation to every Climate.
7. Its Utility for Painting Hulls of Vessels.
8. Its Extreme Cheapness.

I challenge the closest scrutiny, assured that a thorough investigation of the qualities of this Paint will convince the most skeptical that it stands unequalled. This Paint is so prepared, that it flows easily into all joints of metallic surfaces, forming A SECURE, DURABLE, WATER-PROOF COATING.

All Oil Paints are of but little practical value for roof painting, as the heat of the sun soon fries out the oil, and then the pigments are readily rinsed off by the rain.

THIS PAINT WILL NOT EVAPORATE, RUN OR ROT, will resist boiling hot water, and is sufficiently elastic to allow any ordinary degree of contraction or expansion without cracking or peeling from the surface to which it is applied.

It adheres firmly to all metals, forming a body equal to three coats of ordinary paint—will last three times as long, and is the only paint known which will resist extreme changes of all climates for a long period of time.

THE ORIGINAL GUTTA PERCHA ROOFING PAINT should be used on all roofs or metal surfaces exposed to fire, such as Depots, Railroad Cars, Station Houses, Steamboat Docks, Steam Mills, Factories, Foundries, and Bridges.

AS A MARINE PAINT, it has no equal for preserving iron-clads from rust and fouling, and all wood constantly exposed to dampness, water, and the worm, as vessels' bottoms, &c. This Paint will protect iron hulls a long time from grass, barnacles, and corrosion.

Also, Ready Roofing applied to old Shingle and Board Roofs, and painted with the Original Gutta Percha Paint, which is durable, beautiful, elastic, and cheap.

Iron Railings, Awning Posts, and every description of Iron Works painted.

I AM PREPARED TO DO ALL KINDS OF

Jobbing and Roofing Work

IS RESPECTFULLY REFERRED TO THE

IMPROVED ADJUSTABLE

CAR JUMPER.

Patented by Christopher C. Dow, of Philadelphia.

Letters Patent No. 87,399, Dated March 2d, 1869.

The nature of my invention consists, in the first place, of two sheet iron plates, which are made of boiler iron hinged together, so as to be folded up and conveniently carried under the seat of a car when not in use.

In case a fire should occur, the Jumper can be placed on a track over any ordinary number of lines of hose, there being one pair of plates to be placed over each rail of the track. The plates are elevated at their central joint or hinged ends, and have butt joints to give them firmness in their angular or arched position, so as not to touch the hose when cars pass over it. The plates are provided with supplemental rails, which are bevelled on their under sides at their outer ends, so as to present a continuous surface with the tread of the rails of the track, and thus afford a free running of the wheels of the cars. The outer ends of the hinged plates are bevelled off in a like manner to form a continuous surface with the track.

Models can be seen and all information obtained at the office.

GOPSILL'S

STREET INDEX AND CITY GUIDE

OF THE

CITY OF PHILADELPHIA.

1870.

By the decimal system of numbering streets adopted in this city, one hundred numbers are allotted to each square, commencing at the DELAWARE running WEST, and at MARKET running NORTH and SOUTH. All other streets not commencing at either the above points, are numbered in accordance with this system.

The following classification and arrangement of streets forms a diagram for each street, giving its starting-point, intersections and numbers, and will be found of great utility in finding special locations, as well as simplify their former nomenclature.

NOTE.—Such of the streets as are divided into East and West, North and South, will be found under E, & W., N. & S.

M. ROSENTHAL,

MANUFACTURER OF

**SHIRTS, BOSOMS, COLLARS,
 AND WRISTBANDS,**

No. 210 MARKET STREET SECOND STORY,
 PHILADELPHIA.

A NEW INVENTION.

This invention will save a great deal of money and annoyance. It consists of a Shirt Bosom marked in such a manner that it can be cut out by any person, to fit any size shirt, new or old, and gives the most perfect fit.

As I have in operation my new-invented Folding Machine, on which I am folding 300 and 400 dozen Shirt Fronts a day, it therefore enables me to sell my Patent Front cheaper than any other manufacturer.

M. ROSENTHAL.
