TERMS AND VACATIONS.

The College year is divided into three Terms or Sessions.

The Fall Session commences on the *first Wednesday* of September, and ends on the Tuesday preceding December 23d. The Winter vacation will be *three* weeks, the Spring session *thirteen* weeks, the Spring vacation *two* weeks, and the Summer session, ending with Commencement, ordinarily *nine* weeks.

The *first* term of the *next* College year will begin on Wednesday, the 7th of September, 1870, and will end on Tuesday, the 20th of December. The *second* term will begin on Wednesday, the 11th of January, 1871, and will end on Tuesday, the 11th of April. The *third* term will begin on Wednesday, the 26th of April, and will end on Wednesday, the 28th of June, 1871—the day of the Annual Commencement.

The Senior Class continue to pursue their College studies until near Commencement.

It is particularly recommended that when practicable, all the students spend their vacations at home with their parents or friends; or when this is inconvenient, that they take boarding elsewhere than in Princeton. It is found that when a number of young persons are collected together without regular occupation or study, the temptations to idleness and dissipation are often too strong to be resisted.

It is highly important that the students should return to College in time to attend the first recitations or lectures of their respective classes, since an absence of a few days at the time when a new branch of study is commenced seldom fails to embarrass the whole course, and in some cases it is impossible to make up the loss.

TERMS OF ADMISSION.

Candidates for admission to the Freshman, or lowest class, are examined in Cæsar's Commentaries (5 books), Sallust (*Catiline* or *Jugurtha*), Virgil (*Ecloques*, and six books of the *Æneid*), Cicero's Select Orations (*six*), Arnold's *Latin Prose Composition* (twelve Chapters), the *Gospels* in the Greek Testament, Bullions' or Felton's *Greek Reader*, Arnold's *Greek Prose Composition* (*twelve exercises*), and two books of the *Anabasis*, or other authors equivalent in quantity, together with Latin and Greek Grammars, including Latin Prosody; also, on English Grammar, Arithmetic, Algebra (through simple equations), the first book of Euclid (or an equivalent), Geography, ancient and modern.

Examinations for admission will be held on the Saturday preceding and the Thursday following the Annual Commencement.

Candidates can be examined at any time during the College Sessions, but it is recommended that they apply for admission on the days above mentioned, or at the beginning of a term.

Every student admitted to a class higher than the Freshman, is examined on the previous studies of the class which he wishes to enter.

An accurate acquaintance with the studies required for admission is indispensably necessary in order to receive the full advantage of the College course.

It is found from experience, that students imperfectly prepared for the classes which they enter, are embarrassed in their future progress, and are seldom able to repair the want of solid preparatory instruction.

To prevent disappointment, it should be distinctly understood, that a thorough knowledge of preliminary studies is more likely to insure admission and to enable the student to improve the advantages of this Institution, than a superficial acquaintance with some higher branches of literature and science.

In all cases testimonials of moral character are required; and if the student has been a member of another College, he must bring with him a certificate from the President or Faculty that he is free from censure in that Institution.

N. B. No one is admitted without an examination by members of the Faculty.

COURSE OF INSTRUCTION.

The whole course of instruction requires four years; namely, one year in each of the four classes into which the students are divided.

The Freshman and Sophomore classes are instructed by the Professors aided by the Tutors. The Junior and Senior classes by the President and Professors.

The studies of the several classes are as follows:

Gentlemen not connected with the College have the privilege of attending the above Lectures on application to the Faculty.

The Professors of Latin, Greek, and Rhetoric take part in the instruction of the Freshman Class.

The Sophomore Class have one weekly exercise in Natural History, and one in Modern Languages (French or German).

During the last two years of the course, students have an opportunity of selecting to a certain extent the studies which they will pursue. These elective studies, chosen at the beginning of the College year and for the entire year, will when chosen be equally obligatory with the required studies.

Each member of the *Junior Class* will be expected to pursue the following

REQUIRED STUDIES.

Mechanics, Natural Philosophy and Astronomy,
Logic, Psychology and Metaphysics,
Physical Geography and Geology,
Rhetoric and English Language,
Relations of Science and Religion.

Each member of the class must pursue the studies prescribed in two of the four following Departments submitted to his choice:

ELECTIVE STUDIES.

Higher Mathematics,
Greek,
Latin,
Modern Languages,

to each of which an equal amount of time is given.

In the *Senior Class* each student will pursue the following

REQUIRED STUDIES.

Chemistry,
Natural Philosophy and Astronomy,
Moral Philosophy,
Political Economy,
English Language and Literature,
Relations of Science and Religion.

Students must make a selection to the extent of six hours per week from the course offered in the following Departments:

ELECTIVE STUDIES.

Natural Philosophy and Astronomy, (two hours per week, of which the student may take one or both),
Organic and Applied Chemistry,
History of Philosophy,
Modern History,
Greek and Greek Literature,
Latin and the Science of Language, and
Two Modern Languages,

to each of which studies an average of one hour per week is assigned.

EXAMINATIONS.

Three public examinations take place during the College year: one at the close of each session. These are conducted by written papers and oral questions. Students who do not pass them will not have their names entered on the rolls at the beginning of the following term until they stand a satisfactory examination. Reports respecting the behavior and scholarship of the students are sent to the parents or guardian after each examination. In future Catalogues the names of those who stand high in any Department will be printed; and in the case of those who are eminent in Latin, Greek, Mathematics and English Language the name of the school or schools at which they were educated will be appended.

RELIGIOUS INSTRUCTION.

A meeting for Religious Instruction is held every Lord's Day from 2.30 to 3.30 P. M., at which all the students are expected to attend, except those who may be certified by their parents or guardians as receiving religious training otherwise. The service is conducted in the Chapel by the President, who has been delivering a course of Lectures on the Life of Christ, in the year 1868-9, and on the Planting of the Church, in 1869-70, and hopes in four years to conduct the students through a complete course of Biblical Instruction. Each Class meets the President once a week for Recitation on the Bible and on his Lectures.

PUBLIC WORSHIP.

Prayers are offered in the College Chapel every morning and evening, when one of the Faculty officiates, and all the students are required to be present. They are also required to attend worship in the Chapel on the Sabbath, except such as have permission to attend service in town.

LIBRARIES.

The College Library contains about sixteen thousand volumes, and is open every lawful day except Saturday from 12 to 1 for consultation and giving out books. Resident Graduates have the same privileges as Under Graduates. In the Libraries belonging to the two Literary Societies there are twelve thousand volumes. The total number of volumes, therefore, in the three libraries, is twenty-eight thousand.

MUSEUM AND APPARATUS.

The College possesses a valuable Astronomical, Philosophical, and Chemical Apparatus, a well-selected Mineralogical Cabinet, a Museum of Natural History, a collection of drawings for the illustration of the Lectures on Natural Philosophy, and Astronomy, and a full sized Manikin for the illustration of the Lectures on Natural Theology, Psychology and Anatomy. There is a series of large relief maps and models, physical and geological, of mountains and volcanoes, executed with great care and imported from abroad. The College has a collection of shells and fossils, and casts of large fossil animals, American and European. Prof. Guyot has presented up-

wards of 5000 specimens of Alpine rocks. In the prospect that larger Museum accommodations will be provided, in consequence of the erection of new Lecture Rooms, the friends of the College are requested to forward valuable specimens in Natural History and Geology.

THE HALSTED OBSERVATORY.

The Astronomical Observatory erected through the munificence of Gen. N. N. Halsted is in the course of completion.

DICKINSON HALL.

This Hall, erected by the munificence of J. C. Green, Esq., of New York, will contain a number of new Lecture Rooms and an Examination Hall, and will be ready by September, 1870.

GYMNASIUM.

The fine new Gymnasium, provided at an expense of \$38,000 by the liberality of R. Bonner, Esq., and H. G. Marquand, was opened on January 13, 1870.

NEW DORMITORIES.

New and commodious Dormitories are to be erected, and will be ready it is hoped by the next Academic Year.

EXPENSES.

The charges for Tuition, Room Rent, Library, Servants' Wages, Washing, Fuel, Gymnasium and Incidental Expenses, for the first term, vary from \$59 to \$72; for the second term from \$48 to \$59; for the third term from \$34 to \$39, payable strictly in advance.

The price of Board varies from \$4.00 to \$6.00 per week. All bills for Board must be paid in advance to the Treasurer of the College; and paid in

full for the session. If any student change his place of boarding without the consent of the officer in charge of the department, he shall forfeit the sum of \$5.00 to be paid to the Treasurer.

No student can take a room, or lodge, out of the College buildings, except by special permission.

Every student occupying a room in the College buildings furnishes his own room, usually taking the furniture of the previous occupant at an appraisal by a disinterested and competent person.

New students pay a matriculation fee of \$5.00.

Each member of the Senior Class is required to pay at the beginning of each of the first and second sessions, \$2.50 for the cost of experiments in Chemistry, Natural Philosophy, &c.; and at the beginning of the third session \$9.50 for a Diploma and \$5 toward defraying the expenses of Commencement.

When a student is dismissed from College for any cause, the whole amount advanced for Board, Washing and Fuel, from the time of dismission, will be refunded to the order of his parent or guardian.

SECRET SOCIETIES.

The following resolutions in regard to Secret Societies, were passed unanimously, by the Trustees of the College, at their meeting on the 28th and 29th of June, 1855.

RESOLVED, That with respect to prohibited secret societies, the Trustees approve of the action of the Faculty, in their requiring students about to enter College, to pledge themselves not to join any secret societies; and that they urge the Faculty to put an end to these secret societies.

RESOLVED, That the President be *directed* at the opening of the next session of the College, to announce publicly to the students, that the subject of prohibited secret societies was deliberately considered by the Trustees, and the Faculty were, by a unanimous vote, required promptly to dismiss any student known after that date to be a member of such an association.

FELLOWSHIPS AND PRIZES.

I. THE FIELD CLASSICAL FELLOWSHIP.

The sum of \$700, to be paid quarterly, will be appropriated to the member of the class of 1870 who may stand highest at a special examination to be held in June, 1870, on the following :

IN GREEK.

Translation from English into Greek.

The portions of Thucydides read in Junior Year, and

The History of Greece during the age of Pericles.

The Apology of Socrates by Plato compared with
The Memorabilia of Xenophon.
The *Œdipus Tyrannus* of Sophocles.

IN LATIN.

Translation from English into Latin.
The Latin of the Junior Year.
The First Book of Lucretius, and an account of
The Epicurean Philosophy.

The translation from English into Greek and English into Latin will be based upon the whole of Part First of Arnold's Greek Prose Composition and Arnold's Latin Composition respectively.

II. THE JAY COOKE MATHEMATICAL FELLOWSHIP.

The sum of \$600, to be paid quarterly, will be appropriated to the member of the Class of 1870 who may stand highest at a special examination to be held in June, 1870, on the following:

Synthetic Geometry, Original Propositions.
Analytical Geometry and the Differential and Integral Calculus,
so far as discussed in Loomis' Text Book.
Mechanics, so far as discussed in the first 155 pages of Olmsted's
Natural Philosophy.

III. THE MENTAL SCIENCE FELLOWSHIP.

The sum of \$600, to be paid quarterly, will be appropriated to the member of the Class of 1870 who may write the best Essay on the "a priori and a posteriori philosophies," (to be given in on or before June 1, 1870), and who may stand highest at a special examination to be held in June, 1870, on the following:

A general knowledge of the Philosophies of Plato, Aristotle,
Descartes, Locke, Kant and Hamilton.
Cicero De Officiis, B. III.
Course of Ethics in Senior Year.
Psychology and Metaphysics, (McCosh's *Intuitions*, Parts I., II.
and III., Book I.)
The Syllogism.

N B. The student obtaining any one of these Fellowships, must pursue studies in the department for which the Fellowship is provided for one year after June, 1870, under the superintendence of the Faculty, and will be required to live in Princeton, or appear in Princeton from time to time as may be appointed, or, if he study at a foreign University, to furnish regular written reports of what he is doing.

IV. EXPERIMENTAL SCIENCE PRIZE.

The sum of \$100 will be given to the member of the Class of 1870 who may stand highest at a special examination on Experimental Science, to be held in June, 1870.

V. THE CLASS OF 1859 PRIZE.

The interest of \$2,000 will be given to the member of the Class of 1870 who may write the best Essay on *The Genius of Shakspeare*, and stand the best Examination on the *Poetical Literature of the Elizabethan Age*. The Essay must be given in on or before June 1st, 1870, and the Examination will be held in June.

N. B. No student shall be allowed to compete for more than one of these five Honors.

VI. THE GEORGE POTTS BIBLE PRIZES:

The yearly interest of \$1,000, expended in the purchase of two copies of Matthew Henry's Commentary on the Bible, will be presented to the two best Biblical scholars of every Senior Class, at the end of their college year.

N. B. It is expected that on or before Commencement announcements will be made of Fellowships and Prizes in other departments.

SCHOLARSHIPS.

Some friends of the College have endowed a number of scholarships of One Thousand Dollars each, which are designed to extend the usefulness and privileges of the Institution on the following terms and conditions:

1. The donor of each scholarship has the privilege of naming it, and of selecting the student who shall enjoy its income, subject in all cases to the rules and regulations of the College.

2. Whenever a scholarship is vacant, its income is to be at the disposal of the Board of Trustees.

3. Scholarships may be maintained by the annual payment of seventy dollars as interest, until the principal sum of One Thousand Dollars is paid. They lapse, of course, when the annual interest fails, unless the principal sum has been paid.

4. Those who are placed upon these scholarships must be fully prepared for admission to College, and when admitted, must conform to its laws and regulations. In all cases of competing claims for scholarships at the disposal of the Faculty, the preference shall be given to those best prepared for College. The relative attainments in all cases are to be determined by the Faculty, and, other things being equal, preference to be given to such as enter the Freshman Class.

5. Candidates must, in all cases, present testimonials of good moral character.

6. Churches contributing a Thousand Dollars each, may, if they desire it, place upon that foundation the sons of their ministers, or, in lieu of that, may nominate some other candidate to receive its avails.

The advantages of such scholarships in increasing the resources of the Institution, extending its privileges to many young men of promise who would otherwise fail of them, and in elevating the standard of liberal education, are obvious. The founding of them must greatly promote the interests of the College, and the thorough and liberal training of its students. The co-operation of the friends of Princeton, especially of the Alumni, is earnestly solicited, for the purpose of enlarging this fund, either by their own donations, or by inducing others to contribute to it, whether by gift or bequest. Such is the number of worthy students to whom such relief is indispensable, that every \$1,000 given for this purpose not only aids one of this class, but adds so far to the current available income of the College.

The following is a list of scholarships belonging to the College of New Jersey, with the names of the donors, or names chosen by them, annexed :

CHARITABLE FUND.

The College possesses a fund given for the purpose of aiding indigent candidates for the ministry in the Presbyterian church, from which they can receive at least Thirty Dollars a year each.

DONATIONS.

During the past year, the family of the late Albert B. Dod, D.D., the distinguished Professor of Mathematics in the College of New Jersey, have given \$30,000 to endow the Chair of Mathematics, to be called after the name of their father. Robert Bonner, Esq., and Henry G. Marquand, Esq., have given \$38,000 for the erection of the Gymnasium. The Alumni of Philadelphia have raised \$9,100 for the endowment of the Chair at present occupied by Dr. Shields, and \$900 for the general purposes of the College. Five gentlemen in New York have contributed \$5,000, and a few gentlemen in New Jersey \$1,000, to aid in endowing the Chair of Modern Languages. The Hon. Richard S. Field, LL.D., gives the interest of \$10,000 for a Fellowship in Classics; and Jay Cooke, Esq., of Philadelphia, a like sum for a Fellowship in Mathematics. The Hon. Henry W. Green, LL.D., gives \$600 for a Mental Philosophy Fellowship for the year 1870-'71. John C. Green, Esq., of New York, has added \$50,000 to the \$100,000 previously given to the ELIZABETH FOUNDATION.

BEQUESTS.

Persons desiring to make bequests to the College are informed that its legal corporate name is "THE TRUSTEES OF THE COLLEGE OF NEW JERSEY." The laws of different States vary so much in this subject, that it is expedient for those who desire to make valid bequests to the Institution to consult and conform to the laws of the State in which they live.

COLLEGE FELLOWSHIPS.

Boudinot Fellow in Belles Lettres and Philosophy (1869-'70),
THEODORE W. HUNT, A.M.

Boudinot Fellow in Latin,
JOHN H. O'BRIEN, A.M.

Boudinot Fellow in Mathematics,
