EXPLANATORY NOTE.

These New and Beautiful designs are produced to assist the Manufacturer with new ideas, and to facilitate their communication to the Workman, at the same laying before the Customer a pictorial representation of the article required.

To render the work more useful and economical, the designs (where practicable) are diversified in form and Decoration, with Decorated and Plate Glass Panels placed in contrast. The Backs designed to the Cabinets may be dispensed with or modified and applied to other Cabinets.

The Book contains Forty-two Perspective Figures to scale, one inch to the foot, and to render the choice more varied and extensive, most of the figures show two or more designs in this beautiful and highly Decorative Class of Furniture.

An explanatory Table of Contents with a margin to affix Prices is also added, it is therefore submitted as the most practical, useful, and standard Book of reference.

HENRY LAWFORD.
